

The SUDC Foundation is the leading organization serving families and professionals worldwide whose mission is to raise awareness, fund research, and serve those affected by Sudden Unexplained Death in Childhood (SUDC). The SUDC Foundation provides trauma informed supports and services at no cost to the people it serves. www.sudc.org.

Thank you for your dedication and compassion that you provide families that have experienced child loss.

- **How to Order Help for Families Brochures: When an Infant or Young Child Dies in the Emergency Room:** <https://sudc.org/help-for-families-brochure/>

This free, personalized brochure can be created and printed for any hospital/ER, medical examiner or coroner's office.

The brochure outlines for families in a clear manner:

- how the medical examiner and coroner process works,
- defines the roles of the professionals that may be involved,
- provides reasonable time estimates for the investigation process,
- provides national resources
- allows for local resources to be included as well.

The brochure is intended to be provided to the next of kin by the investigator during the scene investigation and can be used for all manners of sudden pediatric deaths.
